Dear Manager,

I am writing to express my interest in the Full Stack Developer position at your company. As a highly skilled developer with a passion for solving complex problems, I am confident in my ability to contribute value to your development team.

I possess expertise in a wide range of programming languages, including HTML, CSS, JavaScript, React JS, Django, Git, AWS, Node.js, Firebase, and Bootstrap. My professional experience as a Full Stack Web Developer at Theluji Soapstone involved using modern tools to create various high-quality websites, both frontend and backend, for the company. I worked collaboratively with my team to ensure that the websites were maintained, ran smoothly, and were up to date. Additionally, I implemented a new feature for the platform's reporting module, resulting in a 20% increase in customer satisfaction scores.

During my internship as an IT Support personnel at the Ministry of Public Service, Gender, Senior Citizen Affairs, and Special Programs, I ensured that the system hardware and software components met the needs of the state department, and I carried out internal continuous troubleshooting, maintenance, and servicing of computers and printers.

I have also completed a Full Stack Developer course at eMobile's Technology Training Institute, where I learned about HTML, CSS, PHP, MySQL, NodeJS, SQL Linux, and Android development using Kotlin. Furthermore, I obtained a Diploma in Information Technology (IT) from Jomo Kenyatta University of Agriculture and Technology, where I studied OOP in C++, C and Java, Algorithms, Operating Systems, Data Structures, Database, and Networking.

I am eager to bring my skills, experience, and passion for developing high-quality web applications to your team. Thank you for considering my application. I look forward to discussing my qualifications with you in further detail.

**Sincerely,** Laurence Eddy
